OUTPATIENT SERVICES

UNITED IN SERVICE.
TRUSTED FOR LIFE.

NUCLEAR MEDICINE

Nuclear medicine uses safe, painless, and cost-effective techniques to image the body and treat disease. Nuclear medicine imaging is unique because it provides doctors with information about both structure and function. It is a way to gather medical information that would otherwise be unavailable, require surgery or necessitate more expensive diagnostic tests.

Exceptional care right here in Lea County

Our Board Certified Nuclear Medicine Technologist will make sure that your imaging is done in the safest, most effective and most comfortable way possible.
